

# ZAIN KHALID

FULL-STACK DEVELOPER & DESIGNER

## WORK EXPERIENCE

**Freelance Full-Stack Developer & Designer**  
Lahore - Pakistan  
2024 - Present

**Genius Mart & AJ Collections E-commerce Platforms**

- Architected and developed two full-stack e-commerce applications using Next.js, resulting in Lighthouse performance scores of 95+.
- Engineered secure backends with Supabase and PostgreSQL, managing user authentication, product databases, and order processing.
- Successfully integrated third-party payment APIs (Stripe, JazzCash) to enable seamless and secure online transactions.

**Admin & User Management Dashboards**

- Designed and built intuitive, data-driven dashboards for SaaS and e-commerce applications, enabling efficient management of users, products, and analytics.
- Utilized React and Ant Design to create responsive, enterprise-grade user interfaces for complex data visualization and manipulation.
- Provided graphic design and SEO services, creating complete brand identities and enhancing online visibility for clients.
